

## Energy Sector Education and Training Authority

---

23 June 2004

Mr. Tony Golding  
Deputy Director  
Energy Efficiency  
Dept of Minerals & Energy

Dear Mr. Golding

### **BUILDING ENERGY AUDITORS TRAINING COURSE**

This is to confirm that the skills programme as developed and submitted to the Energy Seta is registered.

The course that is registered consists of the following unit standards: -

- Demonstrate an understanding of the fundamentals of energy audits
- Demonstrate an understanding of the basic principles of energy
- Demonstrate an understanding of and apply energy efficiency in building systems
- Demonstrate an understanding for and apply energy assessment methodologies
- Demonstrate an understanding and apply the business case reporting and quality control of building energy audits
- Develop a project plan for implementation
- Demonstrate an ability to verify savings achieved through the energy audit and implementation.

The unit standards in this programme are registered by the Energy Seta, but the process to have them registered on the SAQA framework is recommended.

The ESETA will gladly assist the Department to have them registered.

Kind regards

F J Swanepoel  
ETQA Manager.
