The background features a dark grey surface with various white and green line-art icons. These include a globe, an open book, two children holding hands, a backpack, a stack of books, a calculator, a microscope, a pencil, and another globe. The main title 'SCHOOL ENERGY DAY' is written in large, bold, white letters with a green outline, set against a green rectangular background.

# SCHOOL ENERGY DAY

by the Department of Energy is an appropriate platform to interact with learners on career development, economic development issues and information dissemination on variety of energy issues.
