

DBSA involvement in Climate Change and CDM

Presentation

16 September 2010:

DOE Carbon Finance Workshop

Lwazi Tyani: Climate Change Specialist

DBSA

Outline

- ❑ Introduction
- ❑ DBSA strategic Approach to address climate change
- ❑ DBSA Support to CDM

Introduction

- ❑ DBSA is concerned about sustainable development viz social, economic and environmental, and to make its investment portfolio sustainable.

- ❑ 5 fold role of Advisor, Partner, Financer, Integrator, Implementer

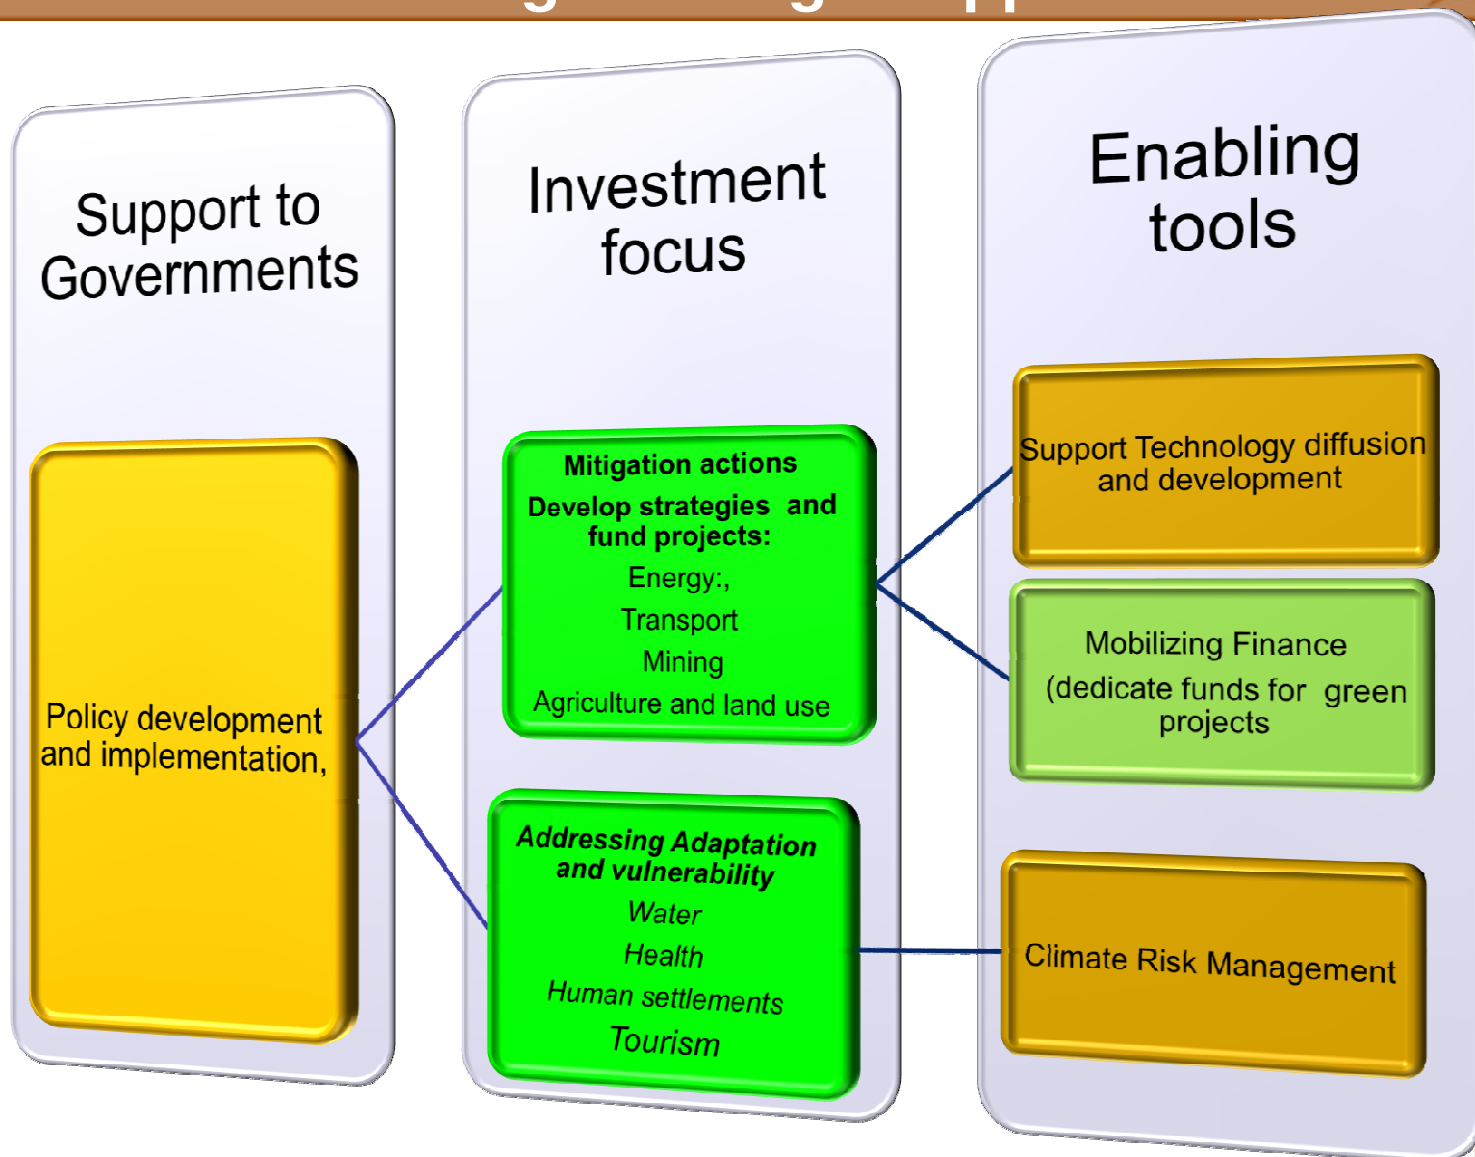

- ❑ Sectors
 - Energy, Transport, Mining, Health, Education, ICT, Water, Agriculture, Tourism, Human Settlements, Rural Development

DBSA Strategic approach to address climate change

- Aim:
 - To promote integration of climate change into the bank's lending and non-lending operations;
 - Make effective climate action part of core development efforts

 - To support activities that will assist economies of SADC
 - ❖ To cope with the negative impacts of climate change
 - ❖ To adopt sustainable and climate-friendly development path

DBSA Climate Change strategic Approach

DBSA Support to CDM

- ❑ One of the considerations in the mobilisation of funds is the Bank's participation and support in carbon trading particularly the Clean Development Mechanism (CDM).
- ❑ The CDM allows the sale of carbon credits generated from projects that reduce green-house gas (GHGs).

DBSA support to CDM

- Technical support
 - The DBSA can provide support by providing technical assistance to projects and project sponsors linked to the DBSA.
 - The support can be in the following types of activities:
 - ❖ Analysis of the potential of overall loans in terms of achieving emission reductions.
 - ❖ Analysis of emissions reductions potential of specific loans, including project specific loans and corporate loans.

DBSA support to CDM

- ❑ Financial support i.e the Bank could consider providing funds for the
 - Preparation of project design documents (PDD) for projects that are identified as having the largest potential as CDM projects, including the PDD for a programme of activities.
 - Validation of the PDD of projects that are well advanced in their preparation.
 - Development of methodologies for sectors that are underrepresented in the African CDM portfolio.
